

North American Tool

"In The Pursuit Of Perfection"

Smart Cut™ Metalworking Fluid

- Extends Tool Life
- Increases Productivity
- Environmentally Smart

Smart Clean Industrial Cleaner Degreaser

- Powerful Cleaner and Degreaser
- Concentrated Formula
- Biodegradable and Non-Toxic

Smart Clean/A Aqueous Parts Washer

- Excellent Parts Cleaning
- Provides In-Process Rust Protection
- Biodegradable and Non-Toxic

Smart Pro Rust Preventative

- Protects and Lubricates
- Displaces Moisture
- Thin, Non-Greasy Film

Smart Pro Gallon Container	FL410	FL415	48.00	192.00	4

Material Safety Data Sheets are available. Contact North American Tool or visit our website at www.natool.com and click on the ‘Product Literature’ link.

“Smart Cut™” is a high performance cutting fluid used for many machining applications. It is a thick cutting fluid that won’t evaporate, stays on the tool throughout the cutting operation, and greatly reduces cutting friction while extending tool life.

Smart Clean/A Aqueous Parts Washer is a water-soluble alkaline cleaner specifically designed for high pressure and high temperature parts washers.
