

## Quality Special Taps, Dies & Gages Shipped Fast!

North American Tool Corporation was established in 1986 to fill an expanding need for reliable, fast shipment of precision quality special taps, dies and gages in the industrial tooling market.

Our unique organization was created with three “Back To Basics” goals and ideals:

- Outstanding Customer Service
- Quality Tools
- Shipped On-Time

### PARTNERING FOR SUCCESS

We value and respect our efficient industrial distributor partnerships, and strive to fashion our business based on their needs. We will continue to develop strong alliances with our distributors...born out of mutual respect, trust and down-to-earth communication.

### QUICK SHIPMENTS SAVE DOWNTIME

We manufacture a complete line of inch and metric-dimensioned special taps, dies and gages, available in most cases for same day shipment. We also manufacture solid carbide taps, carbide insert taps, combination drill-and-tap, thread forming taps, acme/trapezoidal taps, pipe taps, extension taps, thread milling cutters, PM (particle metallurgy) taps, coolant-fed taps, screw thread insert (STI) taps, PG thread series taps, and specials designed to your exact criteria. Our companion line of precision thread plug and ring gages, as well as cylindrical plug and ring gages, are also readily available. Contact us for price and rapid shipment.

While the needs of today's global metalworking industry change, as well as the role of Industrial Distribution, North American Tool Corporation stands ready to meet those needs by incorporating the very ideals that have been the cornerstone of our success. Thank you for your interest in our products and services. We really do appreciate your business and the opportunity to be of service.

*North American Tool also develops interactive apps that assist users of taps, dies and gages.*

*Thread Tap App® is an interactive catalog which is ideal for users of metal cutting taps and threading tools. The 'Thread Tap App®' is an integrated software/'App' solution that intelligently features catalog sections covering Inch sizes, Metric sizes and taps made to custom specifications.*

*Tap Hole Size Calculator® is for smart phones only. This 3-in-one calculator app features a calculator for recommended hole sizes when tapping various materials, a trigonometry calculator, and a standard calculator for fast and easy calculations. A user can also achieve torque and horsepower recommendations based on the type and size of tap, material being tapped, spindle RPM and tap style used (hand, spiral point, spiral flute).*
