## Hole Size Calculator App for Smartphones

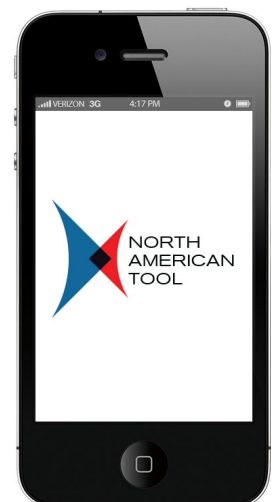

- Tap hole size calculator
- Trigonometry calculator
- Standard calculator
- Torque/HP calculator
- Partner branding program
- An invaluable mobile app for tapping applications

- This app is designed for smartphones with a 3-in-one calculator app featuring a calculator for recommended hole sizes when tapping various materials, a trigonometry calculator, and a standard calculator for fast and easy on-the-job calculations.
- An intuitive app that calculates the exact hole size for tapping applications and subsequent closest drill size when tap size and other parameters are entered.
- When entering tap details, user can select key categories such as type of tap, tap size and pitch, and required percent of thread.
- Provides torque and horsepower recommendations based on the type and size of tap, material being tapped, spindle RPM and tap style (hand, spiral point, spiral flute).
- Partner branding program is available with your logo and contact information. Email [solutions@natool.com](mailto:solutions@natool.com) for more information.

**Available at the App Stores**
